

Harrison Silverdale have been supplying industrial Fasteners since 1982. Over the years we have built an enviable reputation for quality and reliability serving leading OEM's and distributors across Europe.

Our core products are fasteners for plastics and sheet metal. Our parts are manufactured both locally and across the globe resulting in flexible lead times and competitive pricing. We have a design service for special parts which is covered by our ISO 9001-2015 certification. This means we can offer technical support from the design conception, through R&D, prototyping to bulk supply and stock management.

Our extensive range, engineering expertise and industry knowledge means we are best placed to provide a cost effective supply solution for your fastener requirements. **Call our sales office or visit our website to find out more about how we can be of service.**
