Tank Rivet Bushes

Tank Bushes are rivet bushes with sealed or closed ends for use in tanks or other applications where a sealed thread is required. The plain undercut means a water tight seal is formed when the part is riveted into the sheet metal. Materials & Finishes:-Steel Self Colour (Code 2) Steel Trivalent Zinc (Code 26) 303 Stainless Steel (Code SS)

Preferred Sizes

All information is given for guidance only and designers should satisfy themselves as to the suitability of the specification by requesting samples
